2nd Trimester Abortion	\$600-\$3621
Deep Sedation	add \$125
Sliding scale based on annual income.	
Procedures to 24 weeks LMP (5.9 BPD)	

Pre-Abortion Instructions:

- 1) When you call for an appointment, plan to spend 10 minutes on the phone. Appointments are available within a few days of your call.
- 2) Plan to spend 3-5 hours at the clinic for paperwork, ultrasound, lab tests, consent, abortion, and recovery.
- 3) No alcohol or street drugs for 24 hours before your appointment. No children in the clinic.
- 4) Photo ID is required for you and anyone coming with you into the clinic.
- 5) If you need a 2 or 3 day procedure, plan to stay overnight within 30 minutes of the clinic. Local motels offer special rates and free shuttles to airport or clinic.
- 6) If you receive sedation, you cannot drive afterward so arrange for a driver.
- 7) If you have questions during regular business hours, call the main number (800-572-4223) to talk with a nurse. You may call this same number 24 hours a day in an emergency.
- 8) Payment is required at your first appointment. We accept DSHS medical coupons, cash, money order, debit, MasterCard, Visa, and most insurance. No checks. Our staff will pre-verify insurance.
- 9) Low-income pregnant women may be able to get free medical care through WA State DSHS. Apply in person at your local DSHS office, or call 800-770-4334 for details.

Cedar River Clinics specialize in reproductive health. Cedar River Clinics are accredited by AAAHC because we meet high standards. Highly skilled, licensed physicians perform abortion procedures. They are respected leaders in medicine with many years experience.

The Abortion Pill: Also known as medical abortion, Mifeprex, RU-486, or the French Abortion Pill, this is an early option as soon as pregnancy is confirmed by ultrasound and up to 8 weeks LMP (since Last Menstrual Period). The Mifepristone pill is taken orally at the clinic during your appointment. Then 24 to 72 hours later, you take the Misoprostol pills at home which softens the cervix and within 6 to 8 hours, causes bleeding and cramping like in a miscarriage. One to three follow-up appointments are required.

First Trimester: From 6 to 12 weeks LMP, vacuum aspiration is the standard first trimester abortion procedure. The actual procedure takes about 5 minutes to complete.

Second Trimester: From 12 to 22 weeks, appointments are scheduled for two consecutive days. Over 22 weeks requires appointments on 3 consecutive days in Renton.

Deep Sedation: Anesthesia and sedation options explained in detail on the phone. With Deep Sedation, you are unconscious during the procedure and have no memory afterward. Administered by a Certified Registered Nurse Anesthetist. Requires appointments on 2 consecutive days. You must not eat or drink 8 hours before your procedure, and you must have someone to drive you home.

Options Counseling: If you are pregnant and unsure and want to explore your options, call to schedule an "Options Counseling" appointment. You will meet with a specially trained unbiased counselor.

Teens: In WA State, teens do not need a parent's permission for abortion, birth control or STI/HIV testing.

Interpreters: Clinic employees speak Spanish, Romanian, Chinese and English. Certified Medical Interpreters can be arranged for other languages. Please request an interpreter in advance.

You are not alone. One-in-three American women have abortions. It's your body, your decision, your life.
