Sliding Fee Scale

The Abortion Pill \$520 to \$927
1st Trimester Abortion \$495 to \$19801
2nd Trimester Abortion \$600 to \$3621
Sliding Scale is based upon annual income.
Procedures to 22 weeks LMP (5.3 BPD)

- Pre-Abortion Instructions:**
- 1) You must have a positive pregnancy test prior to your abortion appointment. We offer free pregnancy tests in a separate appointment.
 - 2) When you call for an abortion appointment, plan for 10 minutes on the phone. Appointments are available within a few days of your call.
 - 3) Bilingual Spanish-English phone receptionists, clinic staff and health-workers will serve you.
 - 4) Plan for 3 to 5 hours in clinic for paperwork, lab tests, ultrasound, consent, procedure, and recovery.
 - 5) No alcohol or street drugs 24 hours prior to your appointment. No children in the clinic. Photo ID is required for you and anyone coming with you into the clinic.
 - 6) If you need a 2-day procedure, plan to stay overnight within 30 minutes of the clinic. Local motels offer special discount rates for our clients.
 - 7) If you receive sedation, you cannot drive afterward. You must have a driver to take you home, or spend the night in Yakima.
 - 8) If you have questions during regular business hours, call the main number (800-572-4223). You may call this same number 24 hours a day in an emergency.
 - 9) Payment is required at your first appointment. We accept DSHS medical coupons, cash, money order, debit, MasterCard, Visa, and most insurance. No checks. Our staff will pre-verify insurance.
 - 10) Low-income pregnant women may be able to get free medical care through WA State DSHS. Apply in person at your local DSHS office, or call 800-770-4334 for details.

Cedar River Clinics specialize in reproductive health. Cedar River Clinics are accredited by AAAHC because we meet high standards. Highly skilled, licensed physicians perform abortion procedures. They are respected leaders in medicine with many years experience.

The Abortion Pill: Also known as medical abortion, Mifeprex, RU-486, or the French Abortion Pill, this is an early option as soon as pregnancy is confirmed by ultrasound and up to 8 weeks LMP (since Last Menstrual Period). The Mifepristone pill is taken orally at the clinic during your appointment. Then 24 to 72 hours later, you take the Misoprostol pills at home which softens the cervix and within 6 to 8 hours, causes bleeding and cramping like in a miscarriage. One to three follow-up appointments are required.

First Trimester: From 6 to 12 weeks LMP, vacuum aspiration is the standard first trimester abortion procedure. The actual procedure takes about 5 minutes to complete.

Second Trimester: From 12 to 22 weeks, appointments are usually scheduled for two consecutive days. Between clinic visits you must stay overnight within 30 minutes of the clinic. Over 22 weeks, procedures are done at our Renton facility.

Deep Sedation: Anesthesia and sedation options explained in detail on the phone. With Deep Sedation, you are unconscious during the procedure and have no memory afterward. Administered by a Certified Registered Nurse Anesthetist. You must not eat or drink 8 hours before your procedure, and you must have someone to drive you home.

Teens: In WA State, teens do not need a parent's permission for abortion, birth control or STI/HIV testing.

Bilingual staff speak Spanish-English. Interpreters arranged for other languages.

You are not alone. One-in-three American women have abortions. It's your body, your decision, your life.
